**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE**

Assistant Commissioner for Patents  
Box RCE  
Washington, D.C. 20231

**PRELIMINARY AMENDMENT**

Sir:

As a preliminary amendment and being responsive to the Office Action of August 23, 2002 please amend the above-identified application as follows:

Please cancel claims 2-3 and 9-10 and 13-23 without prejudice to applicant's continued prosecution of the amended claim 1 and its dependent claims 4-8 presented herewith. A marked up copy of the two amended claims are attached to show changes.

**IN THE CLAIMS**

Please amend claims 1 and 7 as follows:

1. (Twice Amended) An electric spindle motor having a thrust bearing separate from a radial bearing, comprising:

a base plate;

a rotatable assembly including a rotatable sleeve extending substantially perpendicular from said base plate along a rotational axis, wherein said rotatable assembly is supported by said base plate;

a radial bearing including a stationary shaft securely coupled to said base plate, and extending within said sleeve along said rotational axis and spaced therefrom to define a first clearance gap and a liquid situated within said first clearance gap for providing at least radial stiffness for said rotatable sleeve;
